

The above is the New Dormitory being erected by the Chillothe Business College of Chillothe, Mo., which institution already occupies four large buildings and which has for some time enjoyed the distinction of occupying the largest plant in America devoted exclusively to business education. Its unusually large attendance this year made the above building a necessity. Many young men enter late in the fall when the heavy work upon the farms is finished and the management is thus endeavoring to get the

new building ready for occupancy by December 1st, so as to accommodate these students. The new dormitory will contain twenty-four living rooms and will be strictly modern, supplied with furnace heat, bath, hot and cold water on each floor, in fact, all modern conveniences. All the furnishings will be new so the rooms will be among the most desirable to be found anywhere. This will make a splendid addition to the buildings owned by this large and popular college and is the best evidence which can be offered that the institution is growing rapidly.

# DR. PRICE'S BAKING POWDER

*A pure, healthful, Cream of Tartar Baking Powder*

When buying an article of food you are entitled to know exactly what you are buying—its quality and ingredients.

If this information is refused don't buy it.

Some of the low grade baking powders are advertised, but the ingredients of the powders are scrupulously concealed.

A housekeeper would not use a baking powder containing alum if she knew it.

It is well when buying to examine the label on the can. Unless it shows the ingredient cream of tartar, don't buy it.

Dr. Price's baking powder is absolutely free from alum.
